

Purnima Singh

purnimasingh1519@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Software Engineer | Full-Stack Development | Building Scalable and Secure Applications

EDUCATION

Jaypee Institute Of Information Technology

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.66

Noida, India

July 2023 – July 2027

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.io

Databases: MongoDB, PostgreSQL

Cloud DevOps: Git, GitHub, Vercel, Render, Firebase, Docker, AWS EC2

Core CS: Data Structures Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

EXPERIENCE

Summer Intern (IT Department) | Voltas Limited

Jun 2026 – Jul 2026

- Observed enterprise IT operations supporting manufacturing systems, including infrastructure, user support, and system maintenance
- Explored ERP workflows, database-driven applications, and IT processes used to support business operations
- Analyzed existing workflows and identified opportunities for process automation and improved operational efficiency
- Strengthened understanding of enterprise software environments, technical documentation, and cross-functional collaboration

PROJECTS

Kissan Seva AI | *React.js, Python, REST APIs, MongoDB*

Feb 2026 – Apr 2026

- Developed a responsive platform delivering crop recommendations using integrated backend prediction modules
- Designed scalable frontend interfaces using React.js with emphasis on accessibility and responsive user experience
- Integrated REST APIs for dynamic retrieval and rendering of recommendation data
- Optimized frontend-backend communication and application responsiveness through efficient data handling

EnQueueBazaar – Networking Platform | *MERN Stack, JWT, TensorFlow, OpenCV*

Aug 2025 – Sep 2025

- Built a full-stack networking platform enabling developer collaboration, content sharing, and profile management
- Developed RESTful APIs using Express.js for authentication, profile management, and dynamic content delivery
- Implemented JWT-based authentication and role-based access control for secure user sessions
- Designed reusable React components and optimized state management to improve scalability and maintainability

Secure Chat Application | *React.js, Node.js, MongoDB, Socket.io*

Jun 2025 – Jul 2025

- Engineered a real-time communication platform using Socket.io to enable secure, low-latency messaging
- Built backend services and REST APIs with Node.js and Express.js for user authentication and session management
- Implemented hybrid AES-256 and RSA-2048 encryption for secure session-based communication
- Integrated JWT authentication and MongoDB-based key management for secure access control
- Deployed the application using Vercel, Render, and MongoDB Atlas with environment variable management and CI/CD workflows

LEADERSHIP

Delegate Affairs Head | Parola - The Literary Hub

Aug 2025 – May 2026

- Led delegate operations for 200+ participants across inter-college conferences and MUN committees
- Managed issue resolution and communication in fast-paced and high-pressure environments
- Collaborated with cross-functional teams to ensure smooth execution of multi-day events

Technical Team Member | AI/ML HUB

May 2024 – May 2025

- Collaborated on machine learning and computer vision projects in a team-based development environment
- Contributed to algorithm optimization and prototype development for AI-driven applications
- Participated in technical workshops, code reviews, and collaborative software development initiatives

ACHIEVEMENTS & CERTIFICATIONS

- **Flipkart Grid 7.0 - National Semi-Finalist** — Flipkart *Aug 2025*
- **Adobe India Hackathon** — Unstop *Aug 2025*
- **Deloitte Australia - Technology Job Simulation** — Forage *July 2025*
